2. DECIDE HOW YOU WANT TO SERVE PEOPLE

Do you want coaching programs that you deliver on or offline?

Do you want to run a mastermind or retreat or event?

Do you want one on one clients?

Do you just want people to buy your music, art, books?

Do you want to teach people to create art, music, books?

Or maybe a combination of everything?

To get your first \$500 online, just pick one idea and determine to promote that until you are making money with it.

Give it a results based name, if necessary – The 'Drop A Dress Size On 10 Days' Coaching program

Decide how you want to deliver it

Of course, you cannot do this with a book, art, music – It already has a name!

3. SET UP A PAYPAL BUTTON

Decide how much you want to sell your thing at...

Set up free business account with paypal and set up a button (Look under tools in the top bar)

Have it to hand for when people enquire and are ready to move. Send it to them fast before they overthink things. You are the leader in this

relationship – LEAD YOUR PEOPLE TO THE SALE! Believe in the power of what you have!

4. SET UP FACEBOOK PAGE (IF YOU DON'T HAVE ONE ALREADY)

Give it your name.

Put a great profile pic in there – YOUR FACE!

Design a great cover photo that feels good enough to you – Use <http://fiverr.com> if you don't want to do it yourself or use canva.com if you do.

Create 5 social media quote images using canva.com and schedule them in for the day on your page. DO THIS DAILY!

Do a livestream telling people what your business is about and who you are. Maybe no one will come but start as you mean to go on! DO THIS DAILY to build up community. Talk about whatever you want to talk about.

5. SET UP FACEBOOK PAGE LIKE ADVERT

Use the adverts manager preferably.

Start with a \$5 budget

Write 2 ads at \$5 a day budget and start building your page this way...

Remember these are people so try to get them engaging with you and your quote images as soon as possible.

Leave the ads running for a day and see which one seems to be working best...

If no clear winner, leave it again until one seems to be doing better...

Stop the poorly performing one and start another one to run against the winning one...

Try to get those likes for 20c or less

Keep doing this until you do.

Test, tweak, test some more!

6. EVERY DAY, WRITE A SHORT BLOG POST OR DELIVER A 60-90SEC VIDEO

Now, you may be very prolific and want to write long epistles like I do or do the really long videos...

Yes, do that because it will build community but also, deliberately write short posts of 300 words or less (videos of 90seconds or less) that entice people to send you a message to enquire about your program or art.

If books or music, I would just write a post that has a link to where they can purchase it at the end. There is no need for people to message you about it, if they can just consume it without any input from you.

Upload the post and then set up a \$1 advert to promote it JUST TO PEOPLE WHO LIKE YOUR PAGE.

Make sure the post has a call to action at the end telling them CLEARLY To send you a message to find out more.

7. TEST, TWEAK, TEST, TWEAK

Most of your results will be found in testing and tweaking!

There is no magic, except to keep showing up and keep communicating with your growing audience, keep capturing them to your page, keep selling them something!

THE 3Cs – Communicate, Capture, Close

When they send you a private message, offer to jump on the phone with them if it is for a high ticket item (You decide if it is high ticket or not – your best conversion will come on the phone with them.) – Ask them what they want, why they want it, what gets in the way of them getting it and how you can help them get there. As soon as they say yes, send over the paypal link! And then keep following up until they buy from you.

OR you can talk back and forth with them over messenger and then send them over that paypal link.

Again, keep testing and tweaking to see which close works better for you.

Follow those intuitive nudges and don't feel you have to stick to a particular way fo doing things every single time – you are a creative person after all so allow your personality to shine through!

OK, so this is just one of the various ways to monetize your voice. Start here.

I find that people get so caught up in the many, different things they could do and so then they don't do ANYTHING!

Follow this simple plan, keep reading my emails, invest in working with me – I have a vast resource of information I send out for free and also for my private clients.

And to start with, right now, to overcome your need to play small...

Here is the first step to changing things and it costs \$5
